

CITY OF HOUSTON
DEPARTMENT OF PUBLIC WORKS & ENGINEERING
STANDARD FORM FOR ENGINEERING

Instructions For Filing:
FORM PWE 100

PURPOSE:

It is the policy of the Department, in acquiring engineering and related professional services, to encourage firms lawfully engaged in the practice of those professions to submit a statement of qualifications and performance data. Interested firms should complete and file PWE 100 forms with the Department of Public Works & Engineering for each type of project for which the firm is interested in providing services. The form PWE 100 may be used to select firms for the type of project chosen or for screening firms to invite submission of additional information.

DEFINITIONS:

"Engineer and related services" are those professional services associated with research, development design and construction, alteration, or repair of infrastructure, as well as incidental services that members of these professions and those in their employ may legally, logically and justifiably perform, including studies, investigations, surveys, evaluations, consultations, planning, programming, conceptual designs, plans and specifications, cost estimates, inspections, shop drawing reviews, sample recommendations, preparation of operating and maintenance manuals, and other related services.

"Parent Company" is that firm, company, corporation, association or conglomerate which is the major stockholder or highest tier owner of the firm completing this questionnaire; i.e. Firm A is owned by Firm B which is in turn a subsidiary of Corporation C. The "parent company" of firm A is Corporation C.

"Principals" are those individuals in a firm who possess legal responsibility for its management. They may be owners, partners, corporate officers, associates, administrators, etc.

"Discipline," as used in this questionnaire, refers to the primary technologies capability of individuals in the responding firm. Possession of an academic degree, professional registration, certification, or extensive experience in a particular field of practice normally reflects an individual's primary technical discipline.

"Joint Venture" is a collaborative undertaking by two or more firms or individuals for which the participants are both jointly and individually responsible

"Consultant," as used in this questionnaire, is a highly specialized individual or firm having significant input and responsibility for certain aspects of a project and possessing unusual or unique capabilities for assuring success of the finished work.

"Prime" refers to that firm which may be coordinating the concerted and complementary inputs of several firms, individuals or related services to produce a completed study or facility. The "prime" would normally be regarded as having full responsibility and liability for quality of performance by itself as well as by subcontractor professionals under its jurisdiction.

"Branch Office" is a satellite or subsidiary extension, of a headquarters office of a company, regardless of any differences in name or legal structure of such a branch due to local or state laws. "Branch offices" are normally subject to the management decisions, bookkeeping and policies of the main office.

"Individual Experience," as used in this document, refers to that experience of individuals in the responding firm. This reflects an individual's experience of significant input and responsibility for critical and/or major aspects of a project, assuring success of the finished work.

INSTRUCTIONS FOR FILING: *(Numbers below correspond to numbers contained in form):*

Submittal Date: Show date on which form is prepared for each discipline. All information on this form shall be current as of this date.

Type of Project: Separate standard forms should be submitted for each type of project. Please check only one box in each submittal. Page 1 of the form is generally expected to be common to all types of projects.

1. Provide accurate and complete name of firm, address and ZIP Code. Do not use P.O. Box number.
2. Provide year the firm was established under the name shown in question one.
3. Indicate whether the firm is being submitted on behalf of a parent company or a branch.
4. Indicate the status of ownership. Check the appropriate box based on City of Houston Office of Business Opportunity Division's Certification.
5. List names of two principals who may be contacted and who are empowered to speak for the firm on policy and contractual matters. Telephone numbers shall not be those responded by answering services or answering machines.
6. List personnel (by discipline) in Houston office only. Also indicate total personnel within the firm. While some personnel may be qualified in several disciplines, each person should be counted only once based on his/her primary function.
7. List name, location, telephone number and number of personnel in up to nine offices, beginning with the submitting office.
8. Using the index provided for professional services fees, insert the appropriate index to indicate fees received in the last five years. Indicate separately the fees received from direct City of Houston work as opposed to total fees of Houston office. Professional services fees are for all types of work, not just the types in this filing.
9. Provide brief resumes of Project Manager and Project Engineer or Architect proposed specifically for the type of project for which this form is being submitted. Add no more than two other key personnel proposed for this type of project.
10. Give details of work experience specifically related to the type of project for which this form is being submitted. List only relevant projects and no more than nine projects are to be listed. See definitions of Prime (P), Consultant (C), Joint Venture (JV), and Individual Experience (IE) provided elsewhere on this form.
11. Forward a signed electronic copy in pdf format to the Department of Public Works & Engineering (email: PWE100s@houstontx.gov).
