

WASTEWATER CAPACITY RESERVATION NAME TRANSFER APPLICATION

The Utility Analysis Section is responsible for managing water, wastewater, and stormwater flow through the Wastewater Capacity Reservation (WCR) process, which allows the City of Houston to understand the long- and short-term impact on existing infrastructure. A WCR application must be submitted when a property owner proposes new development or redevelopment of property that may increase the demand on existing infrastructure. The guidelines determining capacity, assessing impact fees, and issuing points of connections are located within [Chapter 47](#) of the City of Houston Code of Ordinances and the [Impact Fee Service Unit Equivalency Table](#).

All name transfer applications must be accompanied with:

1. **A recorded deed, title report, title option or title insurance policy for the property.**
2. **Copies of the Wastewater Capacity Reservation Letters.**
3. **Impact Fee or Capital Recovery Charge Receipts.**
4. **Site plan of the land under consideration.**
5. **Processing fee (\$15.00).**
6. **The form must be signed by property owners and notarized.**

Please note: A new Wastewater Capacity Reservation Letter will not be issued; a name transfer receipt will be issued that represents the City's acknowledgement of the transfer of capacity.

It may take one to two weeks to process a Wastewater Capacity Reservation Name Transfer application. For questions or additional information, please contact Impact Fee Administration personnel at (832) 394-8888 or wcrtechs@houstontx.gov.
